Revised Proposal and Completed Wireframe/mindmap for our project, so we have a guide when we develop the application.

## **Challenges:**

To learn dart and flutter as fast as we can, so we can make great progress in our application.

## **Plans / Goals for next week:**

To continue working on Flutter and Dart and to catch up on the time I need for this class.

## **Accountability plan: (What is your plan to keep yourself honest and follow through with the goals that you have outlined?)**

Me and ammon are quite excited and both have the drive to work and finish this project, we came up with many different ideas on how our features will work and added them to our wireframe/mindmap
