Accomplishments:

Getting real close to finalizing the better design and User Preferences, will be done very soon.

Challenges:

Will be to get Group functionality working along with recommendation logic.

Plans / Goals for next week:

Continue to meet with Ammon and make sure we are both up to speed, also to work hard to get both group creation and the logic for recommendations done.

Accountability plan: (What is your plan to keep yourself honest and follow through with the goals that you have outlined?)

Working in a team has motivated me to continue on.

Other comments:

This project may be something really awesome.
