

Name: Roberto Reynoso

Project Title: Reunion

Team Members: Ammon Nelson

Overall Status: Continued to expound on the idea, building a wireframe for us to follow, so everything can be organized, when we start developing.

- **Number of hours worked since last update: 1**
- **Number of hours worked on the project thus far: 3**
- **Total number of hours anticipated for completion: 126+**

Accomplishments:

Continued with our communication with one another, and began to develop a wireframe that we may follow.

Challenges:

The challenges see the same as the week prior, it is going to take a lot of research and learning for use to accomplish this project, I believe it will be worth it.

This project would require for us, to get familiar with new technologies. Like *React Node-Js Java-script ect.*

Plans / Goals for next week:

Have a finished wireframe by next week and work on writting up the proposal.

Accountability plan: (What is your plan to keep yourself honest and follow through with the goals that you have outlined?)

My motivation to work on a project like this is very much a high, I'm excited, so that will push me forward.

Other comments:

This project may be something really awesome.
